Continuation of 10. Other (including any explanation in support of the above items):

Appellant filed an Appeal Brief (March 29, 2006). A review of the file' reveals that the "Summary of Claimed Subject Matter" does not map the independent claim(s) or dependent claim(s) argued separately to the specification, as set forth in 37 CFR § 41.37(c)(1)(v) which states:

v) Summary of claimed subject matter. A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.
